

Bronneberg Reel Splitter Type G-25/G-25A

Are you looking for a high-quality reel splitter that can cut paper, cardboard, plastic foil and aluminum foil? Does your production process require a reel splitter for the recycling of residual rolls? Bronneberg offers a wide range of reel splitter for the efficient recycling of your residual rolls.

These heavy rolls cannot be processed efficiently with normal cutting equipment, with these special "Guillotine" reel splitter it goes without any problems. Thanks to our many years of experience in the engineering of recycling machines, we have been able to develop a paper roll cutter that is designed for years of trouble-free recycling of paper rolls.

The Bronneberg reel splitter is available in various versions. The reel splitter is suitable for cutting paper, cardboard, plastic foil and aluminum foil. Our program includes reel splitter for rolls up to 3000 mm wide and up to 1200 mm diameter.

The various types of reel splitter are available in a version for processing the extra large roller diameter of 1200 mm, recognizable by an 'A' after the type number.

Characteristics:

- Perfect synchronization because of the rack and pinion system
- Applicable for various materials
- Easy to operate due to safe two-hand operation

Extra options:

- Extra blade

Specifications

Power pack:	Electric 400 Volt - 7,5 kW
Blade length:	1.500 mm
Max. roll diameter G-25:	850 mm
Max. roll diameter G-25A:	1.250 mm
Cutting force:	30 Tons
Weight G-25:	2.500 Kg
Weight G-25A:	2.700 Kg
