

Bronneberg Recycling A-500EN Alligator Shear

The easy-to-operate A-500EN alligator shear is fitted with a hydraulic adjustable clamp, which holds material in place during the cutting cycle.

The protected shear head is operated by a foot pedal for single or continuous cutting. The opening of the shear head can be adjusted step free by simply moving the end switch. Blade opening and cutting speed adjustable.

See our full range of [alligator shears](#).
